

# **US Environmental Protection Agency Office of Pesticide Programs**

## **Listing of EPA-registered Spot-on Flea and Tick Products**

**May 6, 2009**

## All Spot-On Flea and Tick Pet Products

**Note to consumers:**

- The list of names of spot-on products that follows is as complete as possible at the time of publication.
- Because flea and tick control products may be marketed under different names and by different companies, the list below may not reflect recent changes to product names.
- The best way to identify a product is to use the EPA Registration Number (Reg. No.) that appears on label. This unique identification number must appear on every EPA-registered product.
- Consumers are urged to use the EPA Registration Number to accurately identify products. Registration numbers are provided below in the right-hand column.
- Please note that the EPA Reg. No. on a product package may appear as a 2-part number, such as 1234-56 or a 3-part number, such as 1234-56-78910. 3-part numbers represent distributor products, and the last number in the sequence reflects the distributor company. In the case of distributor products, the first two parts of the number in the series are what should be compared to the numbers in the right-hand column of the table below.

Company	Product Names	Reg. No.
